Art.No. 0102265

Curtain divider; Specifically developed curtain divider fabric for the health care sector, which provides privacy in patient rooms, examination and therapy rooms. The easy care and antimicrobial fabric provides privacy while maximising the use of daylight. In the upper, extremely transparent section, an open grid is formed by knitting technology, while in the dense section, the voluminous yarns and the very high thread density produce a closed fabric appearance. Zona is flame-retardant and available in six light colours.
